

Engage, Convert, and Support Travelers with Automated Chatbot

Streamline every phase of the travelers journey, from initial marketing outreach to ongoing support, using the efficiency of chatbots.

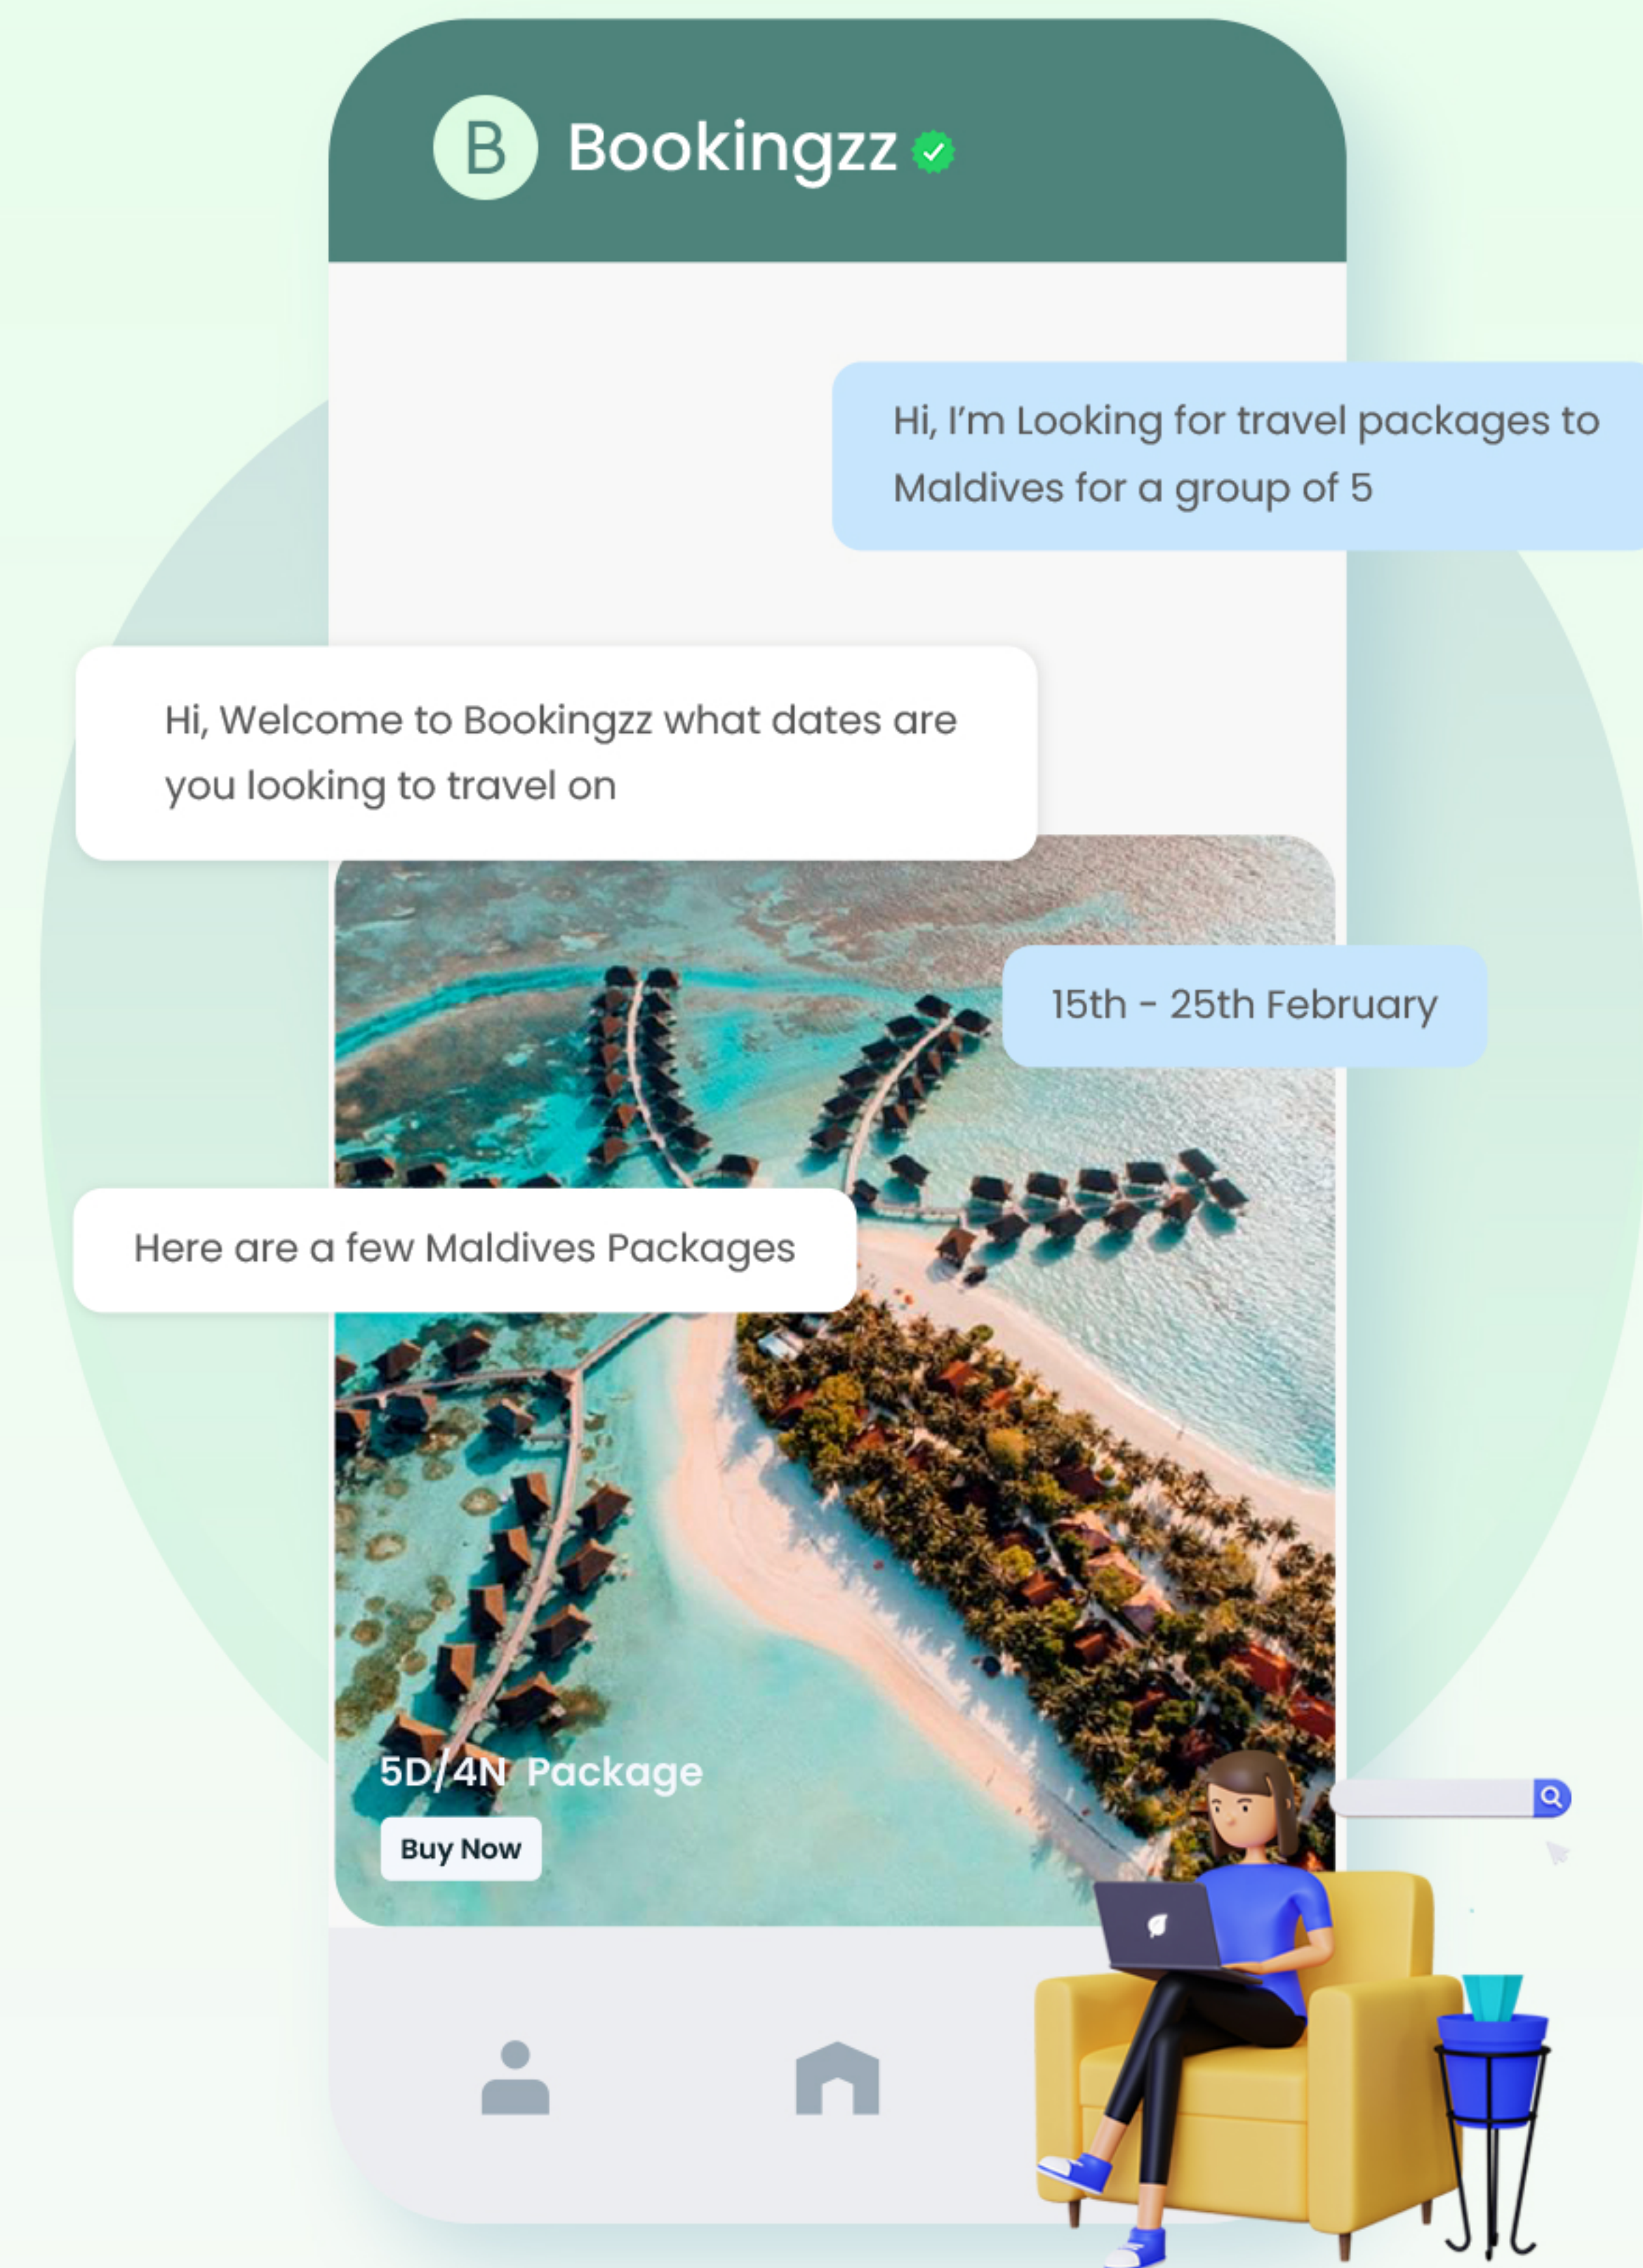

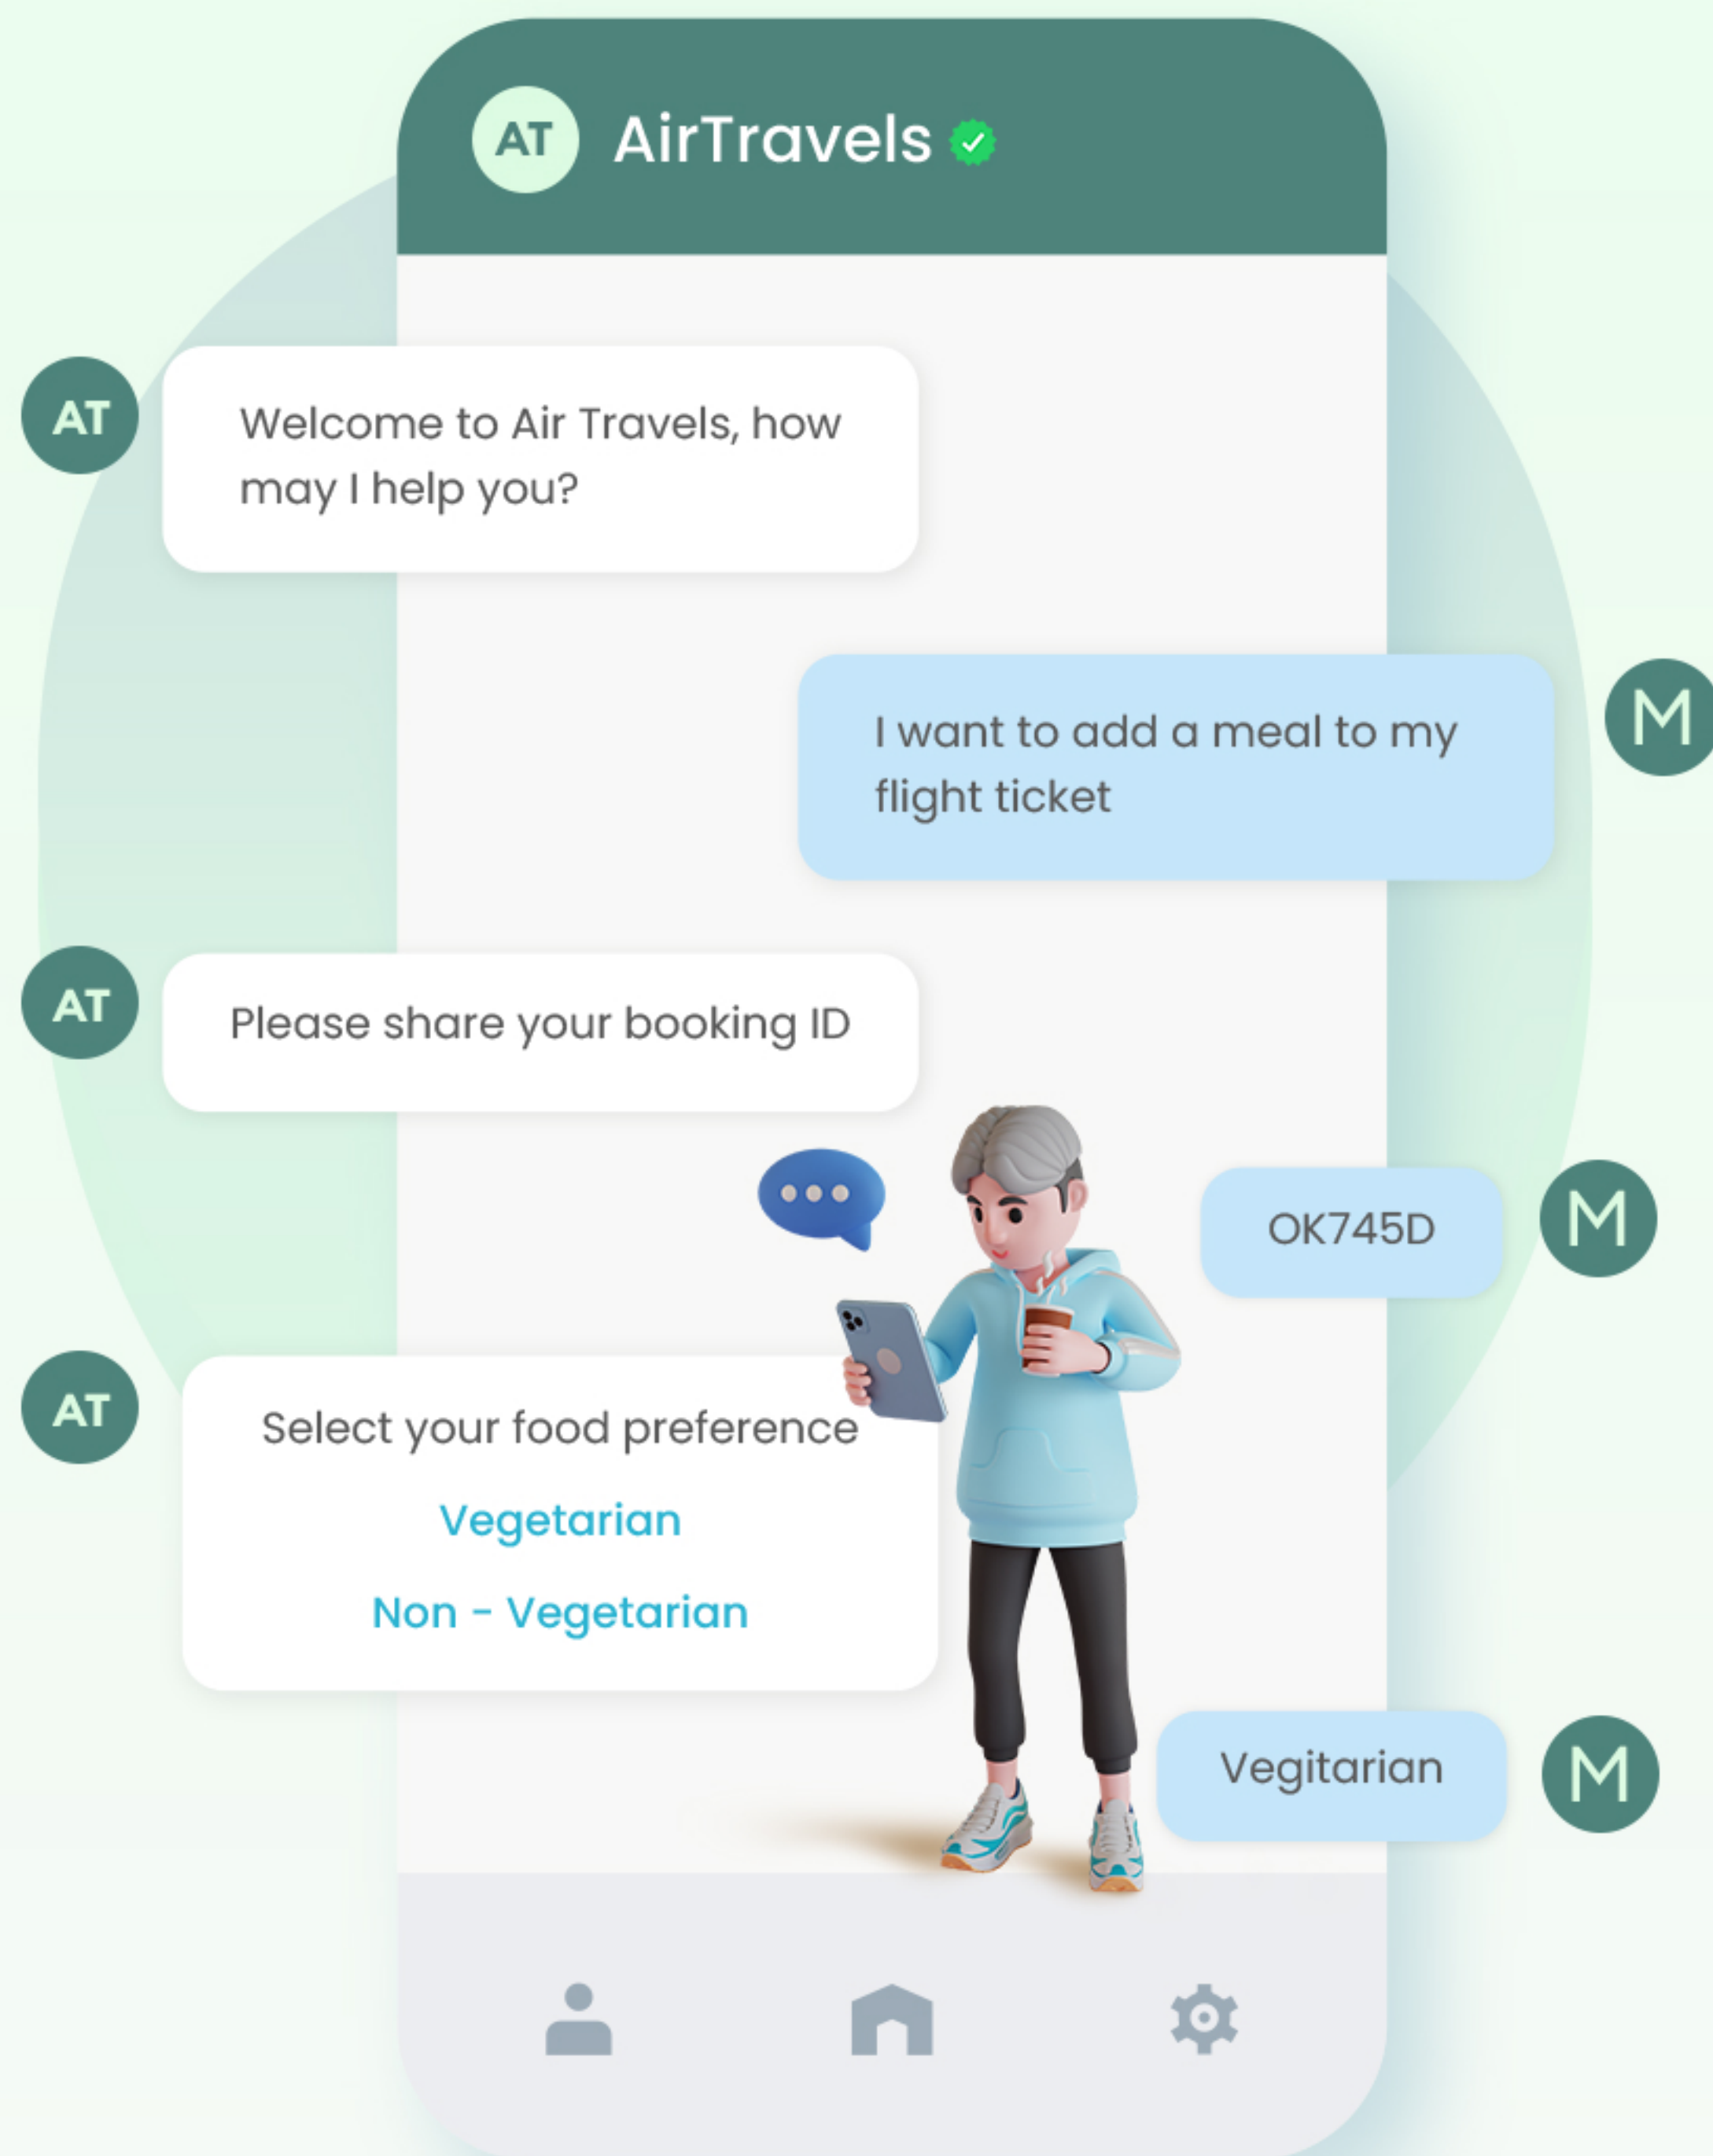

Automate the process of acquiring and reaching out to travelers.

- Attract fresh clientele to discover and inquire about travel packages via WhatsApp Chat
- Deliver customized messages to maintain your customers' interest and keep them updated on upcoming promotions, offers, and suggested itineraries.
- Initiate proactive interactions with customers through automated direct messaging on Instagram, Google's Business Messages, and WhatsApp.

Implement automated sales processes on social media platforms.

- Utilize visually appealing WhatsApp Commerce stores to showcase catalogs featuring fresh travel packages and destination options.
- Turn website visitors into paying customers through WhatsApp Chat button and boost reservations
- Minimize instances of abandoned travel plans and motivate travelers to complete, adjust, and finalize their bookings with ease.

Automate peace of mind with 24/7 support

- Deliver continuous support to travelers 24/7, in various languages, attending to inquiries regarding reservations, cancellations, adjustments, and additional requests.
- Redirect frequently asked questions to chatbots and voice bots to enhance customer experience by swiftly directing urgent queries to agents.
- Enable your agents to address customer inquiries seamlessly across all communication channels using a unified inbox.
